

Roudi 2 TR convention : 3 steps Roudi

Roudi 2 ♣ is the responder's second bid looking for a fit in his major suit.

This convention is used:

- after a minor or a ♥ opening,
- followed by a level 1 response in a major (which can be made with 4 cards only),
- and the opener's rebid of 1NT (a balanced hand).

The requirements for a Roudi:

- five cards in the named major
- a minimum of 11HCP with no upper limit. You need to be thinking about game.

The responses to the Roudi. Dominique recommends the 3 steps convention:

- 2♦ : no fit (only 2 cards)
- 2♥ : 3 cards in the responder's major and a minimum opening hand (12-13HCP)
- 2♠ : 3 cards in the responder's major and a maximum opening hand (14HCP)

We will use only these 3 responses to the Roudi.

The consequences of the Roudi.

After the opener's 1NT rebid:

- if the responder simply repeats his major suit, he promises 5 cards with less than 11HCP
- if he repeats his major suit with a jump, it is a slam bid.

Why is the 3 steps Roudi ? Because the 4th response (2NT) gives information to the opponents and doesn't help the partner.

After a 2♦ response (no fit), the partner would bid 3NT anyway with 12HCP or else propose game by bidding 2NT.

If the responder has bid game in 3NT, the opener remains the declarer but, without the 4th response, the opponents don't know exactly how many points he has. This makes the defence more difficult!
