

Leading a card when playing a trump contract

Leading a card when playing a trump contract

Good leads :

- with a sequence of at least 2 honors lead the top of the sequence
- with a singleton and low value trump cards lead a singleton to enable a ruff.
- lead a trump card by playing a low value trump card, you are not hoping to make a trick, but trying to stop the Declarer from using his low value trumps to ruff from the short hand.

Leads to avoid : under a high honor card (ace or king)
