

## Communications

### Communications

- In order to make tricks, you need to be in the "good hand" (or be able to return to the "good hand") : so you need to pay attention to communicating
  - In the example below, if you start by playing the 7 to the ace, you can only make 2 tricks..
  - Therefore, you need to start by playing the honors from the short hand.
- 

exercise q2769

Play the queen 1st so that you can make 3 tricks.

If you play the 7, you can never make your king ! (7 for the ace, then 6 for the queen ... and you can never cross to dummy to make your king).
